Abstract submission deadline: **November 22nd, 2026**

Early-bird registration deadline: **January 31st, 2027**

Nanoengineering for Mechanobiology 2027

Topic for the 8th symposium: Systems Mechanobiology

Mechanical phenotyping, Multiplexing, and Modelling

7 - 11 March 2027; Camogli, Genova, Italy

Organised by

- ✓ Daniel J. Mueller, ETH Zurich, Basel, CH
- ✓ Massimo Vassalli, University of Glasgow, UK

The venue: www.cenobio.it

Mechanobiology has revealed how forces influence cells, tissues and organisms. The next challenge is to understand how mechanical information is integrated across scales and how it interacts with cellular state, tissue organisation and biological function.

N4M 2027 brings together leaders in mechanobiology, quantitative imaging, developmental biology, AI, omics and theoretical modelling to explore this emerging systems-level perspective. From molecular mechanisms and cellular decision-making to tissue organisation and predictive computational frameworks, the meeting will examine how new technologies and interdisciplinary approaches are transforming mechanobiology into a quantitative and predictive science.

Scientific sessions

- ✓ Encoding Mechanical Information
- ✓ Building Biological Systems
- ✓ Seeing Mechanics in Action
- ✓ From Data to Prediction

https://n4m.mechanobiology.eu/2027

Invited and plenary speakers

- ✓ Anna Erzberg, EMBL Heidelberg, Germany - **LINK**
- ✓ Barbara Treutlein, ETH Zurich, Basel, Switzerland - **LINK**
- ✓ Carlijn Bouten, Eindhoven University of Technology (TU/e), Netherlands - **LINK**
- ✓ Christophe Zimmer, Institut Pasteur, Paris, France - **LINK**
- ✓ Danijela Matic Vignjevic, Institut Curie, Paris, France - **LINK**
- ✓ Gray Camp, Institute of Human Biology, Roche Innovation Center, Basel, Switzerland - **LINK**
- ✓ Jacky G. Goetz, University of Strasbourg, France - **LINK**
- ✓ Jan Brugués, TU Dresden, Germany - **LINK**
- ✓ Johanna Ivaska, University of Turku, Finland - **LINK**
- ✓ Michael Krieg, ICFO, Barcelona, Spain - **LINK**
- ✓ Pere Roca-Cusachs, IBEC Barcelona, Spain - **LINK**
- ✓ Serena Zacchigna, ICGEB, Trieste, Italy - **LINK**
